Factories and Industrial Buildings

Jones and Hampton Ltd have many years experience working in Factories and Industrial Buildings and have completed a variety of work including:

- **Aid and Adaptation** – Ramps, Hand rails and the laying of safety flooring.
- **Civil Work** – Car Parks, Footpaths, Driveways and Landscaping.
- **Cyclical maintenance** – Painting and repair Programmes, Window and Door Programmes, Periodic inspection and repairs, Asbestos removal and encapsulation.
- **Refurbishment** – Computer suites and Toilet refurbishment. External repairs and redecoration. Window and Door replacement.
- **Responsive repairs** – Plumbing, heating, gas, electrical and general building including 24 hour call out.
- **Gas and Electrical Testing** – Including PAT testing.

We can demonstrate our understanding of the specific requirements of working within this environment by:

Ensuring all our people are CRB checked and trained in customer care to deal with the specific requirements of working within your environment.

Offering you technical advice. Often resulting in saving you money instead of helping you spend it.

One stop shop – our comprehensive range of services means you don't need to use anyone else.

Carefully plan, carry out the work and ensuring completion working around your schedule often resulting in working out of hours.

Fix first time. Our vans have comprehensive van stocks reducing the need for return visits, helping to minimise inconvenience and disruption.

Meeting your KPI expectations. We get the job done on time and in budget

We always serve our clients and will work along side your staff to become an integral part of your supply chain, we will share your aims, ambitions and collectively work together to create an environment fit for investment in training, IT, and continual improvement.
